

# Eolo Windows Ventilation System

 **Doppio vetro:** uno con vetro sabbbiato ad anta battente e guarnizione sul perimetro

Elevata resistenza ai raggi UV che comporta notevole resistenza del colore del materiale in PVC

Durevoli, non richiedono manutenzione, non temono l'esposizione alle intemperie

Zanzariera che impedisce l'ingresso di insetti, fogniame, ecc.

 **Double pane,** frosted glass sash door with extruded bubble seal on perimeter

Superior UV resistance and color retention PVC extrusion material

Durable, maintenance-free, performance that will not dent, peel or rot

Insect screen keep the bugs out

Protective film for easier and cleaning installation

 **Doble panel, puerta con vidrios opalinos con sello de burbujas en el perímetro.**

Resistencia a los rayos UV y material para la retención del color de extrusión de PVC

Rendimiento duradero y exento de mantenimiento que garantiza que no se abollará, descascarará o deteriorará

La mosquitera mantiene a los bichos fuera

Capa protectora para una instalación más fácil y limpia

 **Double vitrage, verre dépoli, vantail oscillo-battant avec joint d'étanchéité extrudé en périmetrie**

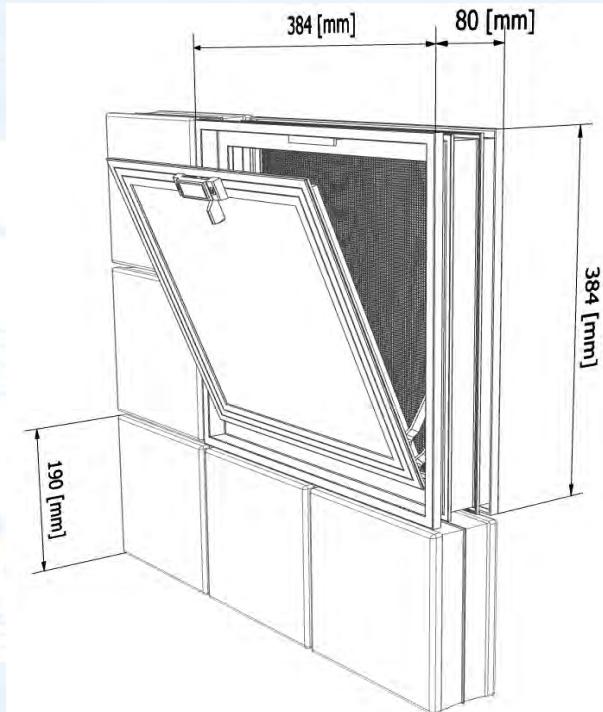

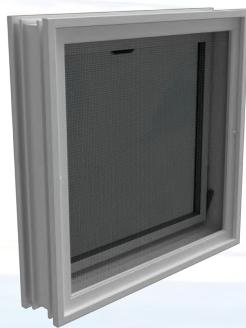

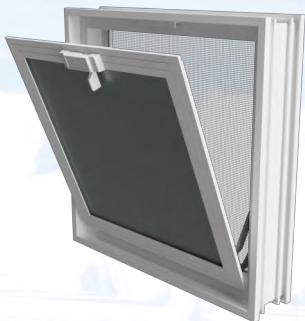

Haute résistance aux UV et à la variation de teinte du matériau PVC extrudé

Longue durée de vie, sans nécessité d'entretien

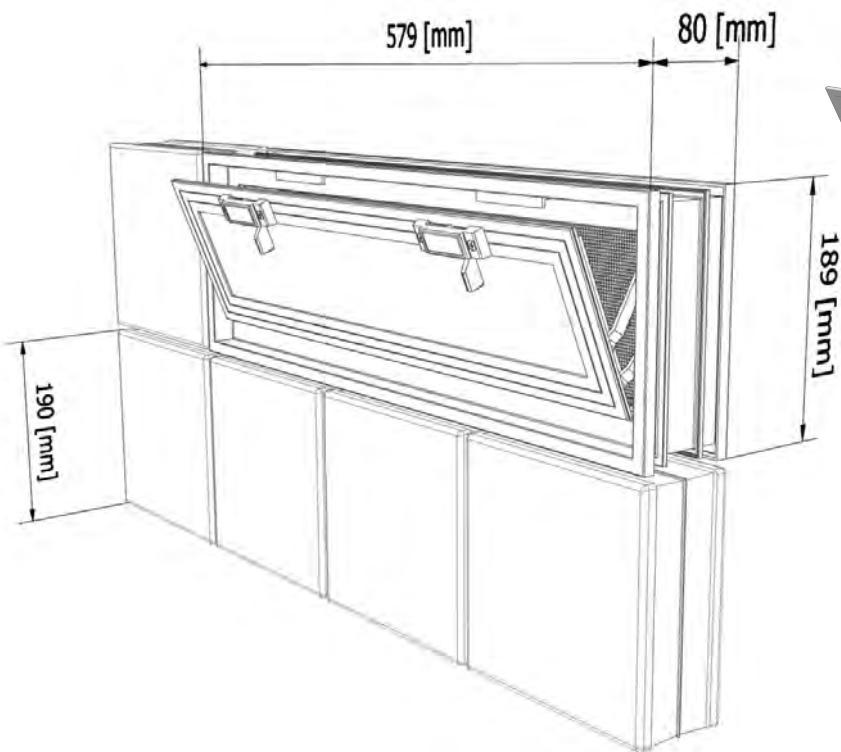

Moustiquaire pour arrêter les insectes

Film de protection pour une mise en place facile et propre
